Title

A conceptual model for selection of architects by project managers in Singapore **Yean Yng Ling** 135
A knowledge-based risk assessment framework for evaluating web-enabled application outsourcing projects **Wendy L Currie** 207
A method to determine minimum contract bids for incentive highway projects **Jin Fang Shr and Wei Tong Chen** 601
A model for effective implementation of Earned Value Management methodology **EunHong Kim, William G Wells Jr and Michael R Duffey** 375
A model of the politics of project leader learning **Andrew J Sense** 107
A self-assessment tool for implementing concurrent engineering through change management **Matthew Ainscough, Kevin Neailey and Charles Tennant** 425
A set of frameworks to aid the project manager in conceptualizing and implementing knowledge management initiatives **Jay Liebowitz and Isaac Megbolugbe** 189
An empirical analysis of the relationship between project planning and project success **Dov Dvir, Tzvi Raz and Aaron J Shenhar** 89
An overview into the concept of partnering **Shamil Naoum** 71
Approaches to project management in Africa: implications for international development projects **Ndiritu Muriithi and Lynn Crawford** 309
Assessing "team climate" in project teams **Robert Loo** 511
Assessing Extension of Time delays on major projects **Terry Williams** 19
Assessing the value of a project management simulation training exercise **John K McCreery** 233
Behavioral aspects in construction partnering **Sai-On Cheung, Thomas S T Ng, Shek-Pui Wong and Henry C H Suen** 333
Causes of delay and cost overruns in construction of groundwater projects in a developing countries; Ghana as a case study **Yaw Frimpong, Jacob Oluwoye and Lynn Crawford** 321
Construction contracts: the cost of mistrust **Ramy Zaghloul and Francis Hartman** 419
Construction industry joint venture behaviour in Hong Kong—designed for collaborative results? **Derek H T Walker, Derick S Johannes** 39
Deconstructing project management: a gender analysis of project management guidelines **Pamela Buckle and Janice Thomas** 433
Design documents quality in the Japanese construction industry: factors influencing and impacts on construction process **Andi and Takayuki Minato** 537
Determinants for external communications of IT project managers **Ralf Müller** 345
Editorial **Professor J Rodney Turner** 385
Emergent project management: how foreign managers can leverage local knowledge **Arkalgud Ramaprasad and A N Prakash** 199
Exploring the politics of project learning **Andrew J Sense and Marc Antoni** 487
Genesis and role of standards: theoretical foundations and socio-economical model for the construction and use of standards **Christophe N Bredillet** 463
Harvesting project knowledge: a review of project learning methods and success factors **Martin Schindler and Martin J Eppler** 219
Implementation and performance of a matrix organization structure **John A Kuprenas** 51
Incentive/disincentive contracts and its effects on industrial projects **Abdulaziz A Bubshait** 63
International project marketing: an introduction to the INPM approach **Maria Anne Skaates and Henrikki Tikkanen** 503
Knowledge creation in multidisciplinary project teams: an empirical study of the processes and their dynamic interrelationships **Patrick S W Fong** 479
Knowledge integration processes and dynamics within the context of cross-functional projects **Jimmy C Huang and Sue Newell** 167
Knowledge sharing: context, confusion and controversy **Scott Fernie, Stuart D Green, Stephanie J Weller and Robert Newcombe** 177
Making project status visible in complex aerospace projects **T F Burgess, K Byrne and C Kidd** 251

Managing knowledge and knowledge competences in projects and project organisations **Jyrki J J Kasvi, Matti Vartiainen and Milla Hailikari** 585
Managing multi-project environments through constant work-in-process **S Anavi-Isakow and B Golany** 9
Managing soft change projects in the public sector **Lynn Crawford, Kerry Costello, Julien Pollack and Lesley Bentley** 443
Modelling global risk factors affecting construction cost performance **Daniel Baloi and Andrew D F Price** 261
Monitoring systems and their effectiveness for project cost control in construction **Saad H Al-Jibouri** 145
Multimedia projects and the optimum choice of individuals and teams **Rod Farr-Wharton** 271
Note on the paper 'Resource-constrained project management using enhanced theory of constraint' by Wei et al. **S E E Elmaghraby, W S Herroelen and R Leus** 301
On the nature of the project as a temporary organization **J Rodney Turner and Ralf Müller** 1
Partnering in the house building sector: a subcontractor's view **Gary Packham, Brychan Thomas and Christopher Miller** 327
Power distance in Singapore construction organizations: implications for project managers **Willie Tan and Eddie Chong** 529
Predicting final cost for competitively bid construction projects using regression models **Trefor P Williams** 593
Principal-agency risk in project finance **L M Farrell** 547
Problems in managing internal development projects in multi-project environments **Suvi Elonen and Karlos A Artto** 395
Project Management Strategy—project management represented as a process based set of management domains and the consequences for project management strategy **David K Anderson, Tony Merna** 387
Project maturity in organisations **Erling S Andersen and Svein Arne Jessen** 457
Project monitoring and evaluation: a method for enhancing the efficiency and effectiveness of aid project implementation **Paul Crawford and Paul Bryce** 363
Project scheduling for collaborative product development using DSM **Chun-Hsien Chen, Shih Fu Ling and Wei Chen** 291
Project sponsors under New Public Management: lessons from the frontline **Mark Hall, Robin Holt and David Purchase** 495
Psychosocial aspects of project work: a comparison between product development and construction projects **Annika Zika-Viktorsson, Svante Hovmark and Stefan Nordqvist** 563
Social practices and the management of knowledge in project environments **Mike Bresnen, Linda Edelman, Sue Newell, Harry Scarbrough and Jacky Swan** 157
Substantiation and assessment of claims for extensions of time **M M Kumaraswamy and K Yogeswaran** 27
Tacit knowledge acquisition and sharing in a project work context **Kaj U Koskinen, Pekka Pihlanto and Hannu Vanharanta** 281
The creation and application of a self-assessment process for new product introduction **Charles Tennant and Paul Roberts** 77
The effects of environment and partner characteristics on the choice of alliance forms **Chung-Jen Chen** 115
The impact of government practice on the ability of project managers to manage **Yvonne Brunetto and Rod Farr-Wharton** 125
The maturity of project management in different industries: An investigation into variations between project management models **Terence J Cooke-Davies and Andrew Arzymanow** 471
The process of investment appraisal: the experience of 10 large British and Dutch companies **Mehari Mekonnen Akalu** 355
The Project Excellence Model®: linking success criteria and critical success factors **E Westerveld** 411
The relationship between project leadership, team composition and construction project performance in Nigeria **K T Odusami, R R O Iyagba and M M Omirin** 519
The resource allocation syndrome: the prime challenge of multi-project management? **Mats Engwall and Anna Jerbrant** 403
The value of management flexibility—a real option approach to investment evaluation **K T Yeo and Fasheng Qiu** 243
Transforming project risk management into project uncertainty management **Stephen Ward and Chris Chapman** 97
Turner's five-functions of project-based management and situational leadership in IT services projects **Liz Lee-Kelley and Kin Leong, Loong** 583
Working conditions in projects: perceptions of stress and motivation among project team members and project managers **Margareta Gällstedt** 449
